Subject: Re: LAST CALL: Review PFAS Message Document

Food is a major source of exposure? This is news to me. Is FDA aware?

We also say consumer products- but isn't industrial an consumer applications (coatings on rugs, food packaging, Teflon,) it's not really a consumer product like a shampoo or deodorant.

There is better language here: https://www.epa.gov/sites/production/files/2016-06/documents/drinkingwaterhealthadvisories_pfoa_pfos_updated_5.31.16.pdf

I haven't gotten to the rest yet, too discouraging....

Sent from my iPhone, please excuse typos.

Here's the latest version of the PFAS messaging document from OW. They didn't quite have our bullet on GenX/PMN review right so I fixed that. This is the last call for edits before R4 shares w/ their states. Please let me know if you have any other edits/concerns. Thanks.

Subject: LAST CALL: Review PFAS Message Document

Thanks to everyone for your comments on the first round of this document. I have done my best to capture everyone's comments in the attached draft and I am asking for one **last call review** before we call this document final and send it to Region 4 to share with their states.

Again, the purpose of this document is to capture all of the messages we have been using about PFOA/PFOS/PFAS/GenX. **Deliberative Process / Ex. 5** audience.

Please let me know by **3PM TOMORROW**, if you have any questions or additional edits.

Thanks!
